

PRESS BRIEFS - May 30th, 2011

| PUBLICATION | PAGE | HEADLINE & BRIEF |
|-----------------------|--------------|---|
| Nation | Pg 22 | Steam power is our future says Kiraitu |
| | | Geothermal power is key to meeting Kenya's electricity demand, the Energy minister has said. Its contribution will increase to 15,000 megawatts by 2030. He said the future of the country's economic development was in geothermal power production as it would assure constant supply of reliable and affordable power. |
| The Star | Pg 10 | Sh60bn to go into geothermal power plant in Menengai |
| Business Daily | Pg 19 | KPLC turns to more durable concrete poles |
| | | KPLC has turned to use of concrete poles to reduce power outages caused by frequent fires in slums. The company plans to install 21,950 concrete poles in areas prone to fire, water and termite damage such as slums and swamps. |
| East African | Pg 3 | Dowans taken back to court over energy plant |

| | | |
|-----------------|--------------|---|
| | | <p>The Dowans saga returned to haunt President Kikwete's administration last week, after journalist moved to court to block the proposed sale of contested energy plant on Tanesco compound to an American firm. Last week, US-based energy firm Symbion Power said is had concluded and signed a deal for acquisition of the Dowans power plant that has remained idle at Ubungo Tanesco compounds for months.</p> |
