

PRESS BRIEFS - October 23rd-25th, 2010

PUBLICATION	PAGE	HEADLINE & BRIEF
Daily Nation	Pg 25	All set for geothermal project The report states that the country's reliance on hydropower and diesel will ease following GDC's geothermal power generation project at Menengai Crater in Nakuru. According to the company's Central Rift Valley Manager Benjamin Kubo the Chinese expatriates are expected before the end of the year to help implement the project.
Standard	Pg 33	Government sets up green energy task force The publication indicates that the Government is urging the private sector to ride on the green energy wave and help boost production. Speaking during the launch of the \$1.5million Renewable Energy and Adaption to climate technologies Prime Minister Raila Odinga said that a green energy task force had been formed to support private companies interested in the alternative energy sources.
People Daily	Pg 9-12	Analysts fault plans to up govt stake in KPLC The publication reports that financial analysts are warning that the intended move by KPLC to restructure the power distributor's balance sheet could be counter productive. According to Suntra Investment Bank's John Nderi, the new investments may be skewed more towards the government than economically rational decisions.
