

## PRESS BRIEFS - Friday 04th February 2011

PUBLICATION	PAGE	HEADLINE & BRIEF
<b>Daily Nation</b>	<b>Pg 31</b>	<b>Sh200m power boost for border regions</b>
		<p>The Rural Electricity Authority (REA) will invest sh200 million in hybrid systems that combine wind power with diesel power in Lokichoggio and North Horr, owing to the high cost of transporting fuel to power stations. The power system in Lokichoggio will have a capacity of 500 KW and 200 KW for North Horr. Once implemented, the diesel generators will not only be used as a back-up power but as a source of un-interrupted power supply, said Mr. Zakary Ayieko, the electrification authority CEO, while making the announcement.</p>
