

PRESS BRIEFS - December 2nd, 2010

PUBLICATION	PAGE	HEADLINE & BRIEF
Nairobi Star	Pg 18	Dar plans to build \$2bn power plant with Brazil
		The report indicates that Tanzania is planning with Brazil to built a power plant estimated to cost \$2billion. The Director General of Tanzania's state run Rufiji Basin Development, Aloyce Masanja said that the project would involve the installation of three giant underground turbines, each with a capacity of producing 700MW.
Nairobi Star	Pg 17	KPLC installs alarms on power transformers
People	Pg 28	KPLC installs units to safeguard transformers
		The publication states that KPLC has initiated the process of installing intruder alarm systems to protect the company's transformers in vandalism hotspots. KPLC's Deputy Manager in charge of operations maintainance said that the intruder alarm system to be mounted on the transformer will monitor and send alerts to the control centre.
