

PRESS BRIEFS - February 22nd , 2011

PUBLICATION	PAGE	HEADLINE & BRIEF
Standard F/J	Pg 14	REA to start renewable energy business models
		<p>The publication reports that the Rural Electrification Authority will establish a pilot rural electrification business models using renewable energy. The project will target public facilities and rural industries and will involve establishing pilot renewable models such as community solar systems. REA's Chief Excecutive Officer Zachary Ayieko said that the project will include setting up tariffs that are commensurate with consumers ability and willingness to pay.</p>
