

PRESS BRIEFS - Tuesday May 24, 2011

PUBLICATION	PAGE	HEADLINE & BRIEF
Business Daily	Pg 6	<p>US investors seek green energy deals with African firms</p>
		<p>According to the publication, officials at the US Trade and Development Agency said increased investments in ICT infrastructure and recent tariff incentives to clean energy investors have seen many Americans asking for investment opportunities in Kenya. The opportunities for investment in ICT and geothermal, together with many positive stories that are now coming out of Africa are helping American investors to learn and grow interest about Kenya.</p>
	14	<p>Tanzania moves to tackle energy crisis</p>
		<p>The publication states that power crisis and oil adulteration are the two main issues that will dominate the agenda during the parliamentary committee on energy and minerals meeting in Dar es Salaam, Tanzania expected to start today. The committee will meet Tanzania Electricity Supply Company (TANESCO) to know how the firm implemented the committee's 30 proposals and get an explanation on the current blackout as the committee thinks it was avoidable.</p>
Nation	SC2	<p>Powered by nature</p>
		<p>The publication carries a picture of visitors admiring a gushing steam at the first geothermal well in Menengai. The Geothermal Development Company says the well can generate 10MW of electricity.</p>
	29	<p>TENDER</p>

		The publication carries a tender for Construction of 10km road from Olkaria I to Olkaria IV. The site visit and pre-bid meeting will be on May 27, 2011 and the deadline for submission of bids is June 16, 2011.
	37	TENDER
		The publication carries a tender for Requests for Proposals for Emergency Thermal Power Plant of 60MW using Open Technology at Muhoroni Site. The closing date is June 23, 2011 at 12.00 noon.
