

PRESS BRIEFS - Monday & Tuesday May 2 & 3, 20

PUBLICATION	PAGE	HEADLINE & BRIEF
<p>02.05.2011 Business Daily</p>	<p>Pg 5</p>	<p>Expensive fuel pushes power cost to 14-month high</p>
		<p>According to the publication, the cost of electricity will rise to a 14 month high this month due to increased use of expensive diesel-driven power generators, further fuelling inflation. KPLC announced that the fuel cost adjustment, a cost item on the bills linked to the amount of electricity generated from fuel, will increase from Sh5.73 to Sh6.15, the highest level since April 2010.</p>
<p>03.05.2011 Business Daily</p>	<p>8</p>	<p>Manufacturers sign Sh3.3bn green power deal</p>
		<p>The publication states that the French Development Agency (AFD) signed an agreement with the Kenya Association of Manufacturers (KAM) to provide Sh3.3 billion to CFC Stanbic Bank and Co-operative Bank for lending to firms investing in renewable energy projects.</p>
<p>Nation</p>	<p>26</p>	<p>KPLC expands prepaid meters programme</p>
		<p>According to the publication, electricity consumers in the Coast, Rift Valley and Western provinces are expected to start paying for their power in advance as KPLC expands its prepaid meters programme out of Nairobi.</p>
