Insert clause 22.0 Preliminary Examination

As per attached below.

22.1 Technical Evaluation

Tenders will be evaluated as to their responsiveness to the requirements of the Tender Documents as follows:

Responsiveness checklist

TENDER SUBMISSION	Is a Tender Security in the prescribed form provided?
	Is the tender complete?
CORPORATE DETAILS	Is the name of the firm defined including that/those of joint venture partner(s)?
	If a joint venture, is the lead Company stated?
	If joint venture, is a declaration of intent regarding cooperation provided?
	Are names of authorized representatives stated?

Section IV Schedule of Requirements: Price Schedule for Goods

	Is evidence of incorporation in the country of domicile provided including that/those of joint venture partner(s)?
	Is information regarding legal litigation provided including that/those of joint venture partner(s)?
	Is a list of key professional staff and their curriculum vitae provided?
PLANT SPECIFICATIONS	Is the detailed specification of the plants offered provided?
	Is an energy and mass balance diagram with all the required items provided?
	Is the detailed work schedule provided?
	Is a list of mandatory spare parts for the first five years of operation provided?
	Are the names of third party equipment manufacturers provided?
FINANCIAL RESOURCES	Are balance sheet and profit and loss accounts statements for the last three years provided?
PREVIOUS CONTRACTS	Is the Tenderer a manufacturer of turbine generators?
	Are details of previously executed contracts of a similar nature and size, including geographic locations provided?
BACKUP SERVICES	Is a manufacturer's authorization to tender (if applicable) provided?
	Are details of backup service capability and facilities provided?

Section IV Schedule of Requirements: Price Schedule for Goods

Technical suitability of plants

The units offered will be evaluated for technical suitability. Each item will be checked to ensure that it complies with the technical specifications in the Tender Documents. Tenders that are non-compliant will be disqualified.

Technical suitability criteria

Item No.	Description	Optimum	Supplier Specs	Deviation
1.0	Experience with similar projects	Indicate		
2.0	Energy Converter Capability			
2.0 (a)	Steam Consumption	7.6 t/hr/MW		
2.0 (b)	Guaranteed Net Power Output	above 90%		
2.0 (c)	Transportability of the units	Housed in Standard container frame		
2.0 (d)	Unit size	max. 5 MW		
2.0 (e)	Environmental friendliness	Deatails of handling of NCG and noise,		
2.0 (f)	Materials selection			
2.0 (g)	Black Start capability	Mandatory		
3.0	Tolerance for well pressure change	Give range or modification required and cost		
4.0	Back-up service capability	List of spares and back-up service method		
5.0	Delivery Schedule	within 180 days for the 1 st unit		

Only those tenders that are substantially responsive will be evaluated further

Note: Bidders who have different size units for purposes of optimization of output, performance and spare parts inventory may make copies of the table and enter data for each configuration

Section IV Schedule of Requirements: Price Schedule for Goods

List of Goods and Delivery Schedule		
	Before Revision	After Revision
Description of goods	Design, manufacture and supply of complete energy converter (skid Mounted)	Design, manufacture and supply of complete energy converter (Mounted in standard container frame)
Final Destination	Port of Mombasa, Kenya	Olkaria Project Site

Note: Bidders who have different size units for purposes of optimization of output, performance and spare parts inventory may make copies of the table and enter data for each configuration

Section VI. Special Condition of Contract		
	Before Revision	After Revision
11. Insurance	The Supplier shall deliver Goods C&F Port of Mombasa,	The Supplier shall deliver goods DDP Olkaria Project Site

Section IV Schedule of Requirements: Price Schedule for Goods

Section IV Schedule of Requirements: Price Schedule for Goods

List of Goods and Delivery Schedule

The quantity one refers to the first unit to be delivered within 180 days is the duration for delivery of the first unit from the effective date of the contract. The bidders are expected to provide the delivery schedule for the rest of the units. The delivery period for the rest of the units should not exceed 180 days after delivery of the first unit to Olkaria Project Site.

The final destination for delivery of the units will be delivered to Olkaria Project Site. Thus the prices quoted should be DDP Olkaria Project Site.

The number of units and their sizes will depend on how individual bidders optimize the steam from each of the twelve (12) wells for which discharge data was supplied with the tender document. The bidders are expected to provide price for each unit size they propose, delivery period for the first unit and delivery schedule for the rest of the units. Utilization of steam from each well should be handled separately.

Disposal system interface

All disposal systems should terminate on the edge of the well pad with valve and flange. The brine disposal shall be passed through an atmospheric silencer that will also be used for emergency blow out or during start up and terminated as above. The supplier shall also supply a suitable pond evacuation system comprising of submersible and booster pump capable of pumping fluid from the pond to a reinjection well 500m away and over a head of 20m. The ponds will be provided by KenGen next to each well pad. The connection from the termination points to the pond and from the pond to the well will be responsibility of KenGen.

20.1 Opening of Tenders

Query

Can the closing date be extended by 4 weeks from 5th of February to 5th of March 2010?

Clarification

The closing date has been extended to 19th FEBRUARY 2010 TIME 10.30 A M.

Control and Instrumentation

Query

Bidders sought to know if the control will be fully remote or if there will be a requirement for a local control switch as well.

Clarification

The control system for the units shall be fully automated with manual option installed as well.

Section IV: Schedule of Requirements

Technical Specifications

Query

The costing for factory inspection tests is unclear on whether it will be borne by KenGen or by the bidder

Clarification

Training

All the costs of training will be met by the supplier

Inspection and Testing

Factory inspections and testing of major plant equipment shall be arranged to coincide with relevant training. KenGen will meet the costs for the inspection team with the exception of transport in the country of the supplier and its subcontractors.

Section III. Bidding Forms

MANDATORY CONFIDENTIAL BUSINESS QUESTIONNAIRE

(Must be filled by all applicants or tenderers' who choose to participate in this tender)
